- Can be used as sliding panels or as a fixed sunscreen

patented technology

DOMESTIC USE

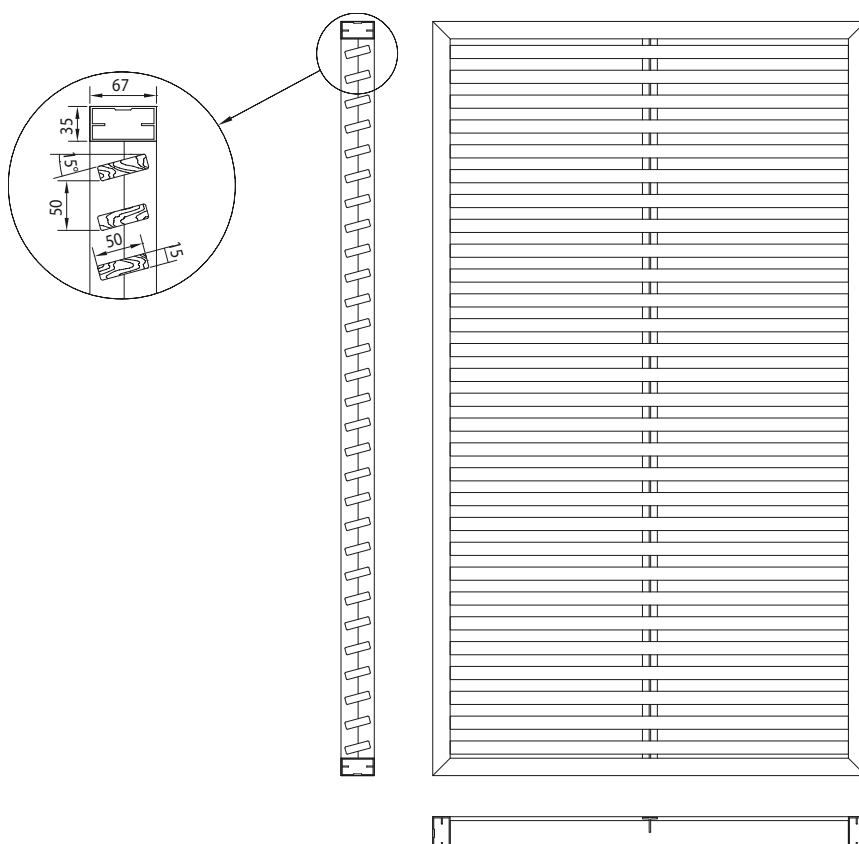

PROJECT USE

INTRODUCTION

With its Loggiawood®, RENSON® takes a further step in expanding its range of sun protection panels. In addition to the existing models made of 100% aluminium and the Loggiascreen® 4Fix, Loggiawood® combines the quality and shape retention of aluminium with the elegance and naturalness of wood. The Loggiawood® concept combines the typical features of these 2 durable materials in a modern, innovative unit.

FEATURES

- Panels finished without visible connectors. Extruded aluminium frame with anodised or powdercoated finish
- Factory pre-assembled and delivered ready-to-fit, made-to-measure production
- Maintenance friendly:
 - Top-quality timber turns a natural grey
 - High-quality, maintenance-free sliding hardware
 - Anodised or powdercoated aluminium, easy to clean with clear water
- Available in a range of designs:
 - Choice of different wood varieties (WR cedar, padauk, etc.)
 - Choice of different blade shapes
 - Any blade pitch and inclination
- Sliding panels with manual or motor control
